

Anthropological Survey of India

NEW LETTER

July - September, 2013

Shri Ravindra Singh, Secretary to the Govt. of India, Ministry of Culture, New Delhi and Chairman of the National Advisory Committee of the Anthropological Survey of India presiding over the meeting of the Committee on 30th September

FROM THE DIRECTOR'S DESK

I am privileged to report to you, that we could hold more Health Awareness Camps this quarter than we could foresee, in the most interior and isolated tribal villages in all four corners of the country. In the coming

months too we plan more such camps, adopting more inclusive approach.

The National Advisory Committee meeting chaired by Secretary (Culture) was held to get a nod to our plan of action ahead and to report the activities since the last meeting in November, 2012.

Our Executive Committee met twice this quarter to review the progress of work related to projects being implemented

and discussed the plan of action ahead in the coming quarters.

Anthropological Survey of India at its Central Regional Centre, Nagpur organized a National Seminar on Biosphere Reserves and their human dimensions in the country and deliberated on its work in that sphere, with inside and outside scholars. We plan more such seminars in the coming quarters and continue to provide collaborative assistance, wherever such efforts are made.

The major project of the 12th Five Year Plan, 'Bio-Cultural Diversity, Environment and Sustainable Development' has almost been completed in the first year, except for a few gaps which will be taken care of in the next two-three months. We plan to start our field operations for the second year soon after.

I wish you all the best for 2014 and promise more exciting and socially useful activities in future as well.

G.S. Rautela
Director

RESEARCH UPDATE

Bio-cultural Diversity, Environment and Sustainable Development

On the basis of data collected through fieldwork, after writing of reports, their scrutiny and submission, all research personnel engaged in the twelfth Five Year Plan Project of the An.S.I., 'Bio-cultural Diversity, Environment and Sustainable Development' participated in the work-shop and presented the reports to the invited experts and others from 16th to 22nd September at the Eastern Regional Centre, Kolkata.

DNA Polymorphism of the Contemporary Indian Populations

Massive sequencing work related to mt DNA and Y chromosome phylogeny has been taken up in the DNA laboratories of Southern Regional Center, Mysore and Head Office, Kolkata since August this year.

So far, Y SNP work for 70 communities has almost been completed while the mtDNA work for 24 primer sets has been completed for nine communities. In addition, work related to eight communities has been taken up at both places.

Preliminary results from Patalkot & Bade-Kilepal Health Camps

The Health camp organized in the Ghatlinga village of Tamia Block targeting five-six villages, concentrated by the Particularly Vulnerable Tribe, Bharia of Madhya Pradesh reports that 400 blood samples were taken and processed by capillary electrophoresis. Preliminary results indicate that 11% are Sick Cell carriers while 11 samples show high levels of HbA2 beyond 3.8%, in about 6 samples HbD like variants were observed which need to be confirmed and in about 5 samples minor peaks (about 1% of Total Hb) beyond A2 zone were noticed which needs to be examined through molecular analysis, as to whether they are novel variants or reported variants of A2. Extraction of DNA is about to be completed for further analysis.

Altogether 584 individuals (male 307 and female 277) were measured for the assessment of nutritional status in three hamlets of Bade-Kilepal village, Bastar district, Chhattisgarh; more than 300 adult individuals were examined for their blood sugar and blood pressure levels. Besides,

blood samples were collected from 225 boys & girls in the pre-marriage age groups from Bison Horn Maria for screening Sick Cell anemia and other Haemoglobinopathies. Preliminary analysis indicates that about 20% were having Sick Cell Trait followed by 2.23% β -Thalassaemia carriers. Three individuals were identified as Sick Cell disease in the prospective screening and about 17% were estimated as Hyperglycemic (blood sugar > 140 mg/dL).

Bio-Cultural Adaptation

So far 47 Diabetes cases and as many controls of Gangadikara Vokkaliga have been taken up for genotyping of which 29 primers through RT PCR and sequencing of 12 by ABI 3730 sequencer.

SNPs' of RENIN gene

Three novel SNPs in the promoter region of RENIN gene have been identified in a population of Eastern India and submitted to the Human Genome Database (Gene Bank).

Experts deliberating on village studies during the Workshop on Bio-Cultural Diversity, Environment and Sustainable Development

From Laboratory to the People

For creating health awareness, especially among the tribal communities of the country, Anthropological Survey of India has taken up a major initiative to organise 'Health Awareness Camps'. In the series, under the Tribal Sub-Plan, camps were organised in tribal villages all across the country. During the camps, free Health check-up in the far-flung tribal villages by qualified medical professionals, free medicines for common ailments and advice on follow-up treatment for ailments and chronic diseases which require long-term treatment schedule are arranged. In addition, data on screening for genetic disorders

like β -Thalassaemia, Sickle-Cell Anaemia, G6PD deficiency etc. free blood sugar check-up, BMI estimation data was collected for further analysis. Irular from Attappady block of Palakkad district of Kerala, Sahariya of Rajasthan; in three hamlets of Bade-Kilepal, Bastar district of Chhattisgarh, among Tharu of Udhham Singh Nagar district and Bhoksa of Dehradun district, Uttarakhand, from Pepbah village of Shillong, Bharia of Tamia block, Chhindwara district, Madhya Pradesh were chosen for holding Health Awareness Camps during the current quarter.

Agartala, which was inaugurated by the Hon'ble Vice-President Shri M. Hamid Ansari.

Mon village of Nagaland was visited to organize documentation of tribal culture.

Workshop-cum-Training programme on Performing Arts of Santals

Eastern Regional Centre of Anthropological Survey of India organized a 20 day Workshop-cum-Training programme on Performing Arts of Santals at Dwaronda village, Birbhum District, West Bengal, from 24th August to 12th September with an aim to preserve the culture and traditions of Santals by training them in their traditional forms of performing arts like drama, dance, music and song which are slowly vanishing out.

The programme housed at Birbhum Blossom Theatre campus, Dwaronda was inaugurated by Prof. Tapati Mukherjee,

Faculty and participants of the Orientation Course on Laboratory procedures and techniques, International School of Anthropology, SRC, Mysore

acting Vice Chancellor, Viswa Bharati University and was chaired by Shri G. S. Rautela, Director, Anthropological Survey of India. About 25 participants from Dwaronda and neighbouring villages were trained during the workshop by Santal gurus along with Sri Partha Gupta, a research scholar of Santal performing arts.

Training Programme cum Workshop on Terracotta Art of the Santals

Anthropological Survey of India, Eastern Regional Centre organized a Training Programme-cum-Workshop on Terracotta Art of the Santals at Dwaronda village, Birbhum, for six days from 2nd - 7th October.

National Seminar

Central Regional Centre of Anthropological Survey of India organised a national seminar 'Biosphere Reserve National Parks and Protected Area Management - Human Dimension: Issues and Challenges' in Nagpur on 26th & 27th September. The seminar was attended by all the involved research personnel and also participated by outside scholars. The theme of the seminar and the issues that came up were deliberated at length.

17th IUAES, UK

Dr. Dipak Kumar Adak attended the 17th World Congress of the International Union of Anthropological and Ethnological Sciences "Evolving Humanity and Emerging Worlds".

Dr. Adak's participation was sponsored by the Indian Council of Medical Research, New Delhi (No. 3/2/TG-42/HRD-2013(1), dated 11.07.2013).

Hindi Pakhwara

The Head Office and Regional/Sub-Regional Centre/s organised 'Hindi Pakhwara' from 13th to 23rd September.
